GALVANIZED ANCHOR

GFORCE

G-Force galvanize anchor designed especially for mossy underwater structures of the Mediterranean Sea. There are 14 models available from 10kg to 100kg and suitable for all kind of boats.

It does not require experience to use G-Force Anchors with original geometric design and it runs without any problem on anchor rollers. Sink to the bottom by itself and definitely holding the surface at first time. The anchor can be easily removed if it is buried to the sand or mud by roll bar.

- Especially designed for mossy underwater structures of the Mediterranean Sea.
- Produced by ST-52 Steel, buried hot galvanized.
- Suitable for all kind boats.
- Running without problem on anchor rolls because of inclined arm structure
- Not require experience to use
- Sink to the bottom by itself
- Easy removed by roll bar
- Reinforcement stays better due to weight on toe. The large chain link hole prevents the swivel lock
