

With the **HIGH PRESSURE GAUGE** pressure of the watermaker can be checked any time

LOW PRESSURE indicator provides to check water cuts.

316 - L Quality Stainless Steel MEMBRANE HOUSING is Long Lasting and has a very elegant look.

American Made "**DOW CHEMICAL**" is arguably the best MEMBRANES

FLOWMETER shows the amount of the fresh water produced in liters / minute

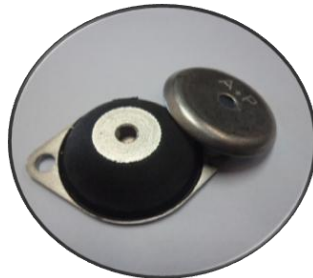

With **UV STERILIZER** %100 Sterile water production

CONTROL PANEL facilitate the use of the device and designed to control production steps easily.

Made in Italy "**ATLAS**" 25 and 5 Micron **PREFILTERS** Filters the sea water which goes to device.

VIBRATION MOUNTS places between the device and the boat. Thus, the Sound of device and Vibration does not reach anywhere on the boat.

Runtime and Maintenance Time Calculation of device done by the **TIME COUNTER**

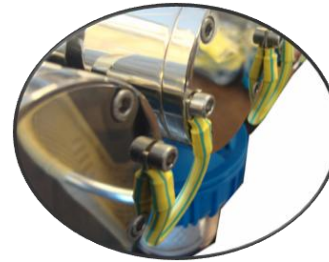

By **DIGITAL REMOTE CONTROL PANEL** all procedures are carried out without going next to the device, also water production is monitored continuously.

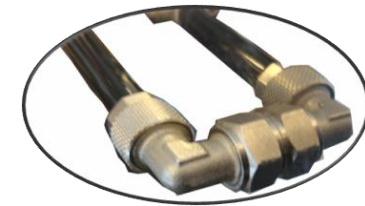

316-L STAINLESS STEEL CASING, beside the elegant appearance of the device Ensures Long Life and Work Clean.

AUTO FLUSHING TANK; The device flushes it self with its self-produced sterile water after each Stop. Thus, membranes and all of the assembly Life extends and Quality of Production Water rises.

Water Maker GROUNDING is Very Important! Our devices grounding line is completely solved this problem.

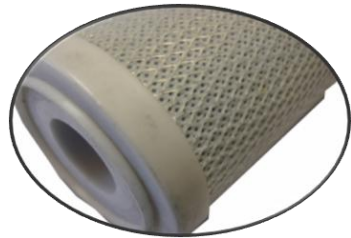

LOW PRESSURE PIPE AND RECORDS are Made in Italy. Easy Plug and is Undeteriorated Type.

LOW PRESSURE SWITCH, Protects Device Against Water Interruption and stops the device.

BY-PASS is the second element in Case of Failure of High Pressure Switch Device to Protect Against Sudden Pressure Rise

CARBON FILTER provides mineral balance and removes odor of the produced fresh water

ELECTRIC BOX; waterproof case, 220 V power

LOW PRESSURE PUMP; Made in Italy Sea Water Pump. It has Plastic Body, Stainless Steel Shaft, Long Lasting Life

ALGAE LOW PRESSURE PUMP FILTER Attaches in Front of the pump and prevents the intrusion of algale...etc

VIBRATION PAD is placed under Motor and Pump . Lowers the sound 40 Db.
